

I am Chantal Zorzi, a PhD student at the School of Engineering, and I am looking for participants to join my research workshop.

We are looking for experienced wheelchair users (1+ years) to participate in a 4-hour workshop to brainstorm and design Virtual Reality (VR) experiences for new wheelchair users. Participants must be over 18 years, not suffer from any cognitive disabilities, and fluent in English.

We have 1 online workshop and one face-2-face workshop (on University campus), in which participants can register to either. Participants will receive a £5 Amazon voucher as a token of appreciation for their participation. For the face-2-face workshop, coffee, biscuit, and lunch will be provided.

This research has been approved by the Central Research Ethics Advisory Group
