

VOLUNTEERS WANTED!

- ◆ Are you a family carer living in the Kent, Surrey or Essex region?
- ◆ Do you manage the personal budget for a person with intellectual disabilities and/or autism?

The Tizard Centre and Personal Social Services Research Unit (PSSRU) at the University of Kent are conducting a study about the experiences of family carers who manage personal budgets for people with intellectual disabilities and/or autism with moderate to high levels of support need.

We would like to speak one-to-one with family carers to understand more about your experiences of managing personal budgets, such as what information and support is available to you and the process of planning and managing support. To say thank you, you will receive a £20 Amazon voucher for taking part.

If you think you would be interested in taking part in the study, or simply want to find out more, please contact a member of the research team who will be happy to talk to you and provide more information about the research:
